Thank You (For Wrecking My Life)

V1

Stop your world / I'd rather get out / And walk

Take cover and hurl / You could take me out / When you talk

I thought I knew how this was played, yeah yeah

I thought I could make you want to change, yeah yeah

Chorus1

I want to thank you

For wrecking my life, for telling me lies

I want to thank you

For not being the one, for the hit and the running away

V2

Crash and burn / I was reckless / With my heart

One wrong turn / I was defenseless / From the start

I thought I knew how this was played, yeah yeah

I thought I could make you want to change, yeah yeah

Chorus2

I want to thank you

For wrecking my life, for telling me lies

I want to thank you

For not being the one, for the hit and the run

I want to thank you

For wrecking my life, for telling me lies

I want to thank you

For not being the one, for the hit and the running away

Bridge

Crash and burn / Toss and turn / Live and learn

It's never enough / Or maybe too much

Chorus to End

I want to thank you

For wrecking my life, for telling me lies

I want to thank you

For not being the one, for the hit and the run

I want to thank you

You wrecked my life, you told me lies

I want to thank you

You were never the one, it was just hit and running away

End

Thank you for wrecking my life

Oh, I wanna thank you

(repeat to fade)
